

About the Conference

International Biomedical is hosting its 15th Annual AirBorne Neonatal and Pediatric Transport Conference in Austin, Texas on May 10-12, 2017. This conference allows transport professionals to learn new techniques and the latest advances in neonatal and pediatric transport from experts in their field and by interacting with other teams from across the US, Canada, and around the world.

Austin, the state capital, is known for its easygoing attitude, musical talent, cultural scene, and friendly atmosphere. In keeping with this casual and playful spirit, we have incorporated fun networking dinners.

Wednesday Night Welcome Party

Please join us for a welcome party in the exhibit hall to preview the vendors, meet up with your old friends and get to know some new friends. Dinner and adult beverages will be provided at the welcome party as we kick off the conference!

Thursday BBQ & Casino Night

Enjoy a leisurely bus ride through the beautiful Texas hill country to the Creekside Pavilion for a fun night of networking with casino games, dancing to a great DJ, door prizes, spirits, and some great Texas BBQ!

Brian Darling, MD

Medical Director
Pediatrix Medical Group of Mississippi

Julian Eason, MD

Department Chair Neonatology
Al Corniche Hospital, UAE

Howard Heiman, MD, FAAP

Medical Director, Neonatal ICU
Cohen Children's Medical Center of New York

Robert Holcomb, MD, FAAP

Director of Neonatal Transport Service, HCA Midwest Division
Overland Park Regional Medical Center

Thomas Lancaster, MD

Medical Director, NICU, Research Medical Center
Medical Director, Neonatal Hypothermia Program, HCA Midwest Division

Michael Meyer, MD

Associate Program Director, Pediatrics Critical Care
Medical College of Wisconsin

Donald M. Null Jr., MD, FAAP

Director of Newborn ICU
University of California Davis

Howard Stein, MD

Medical Director, Neonatology and Pediatric Cardiologist
Toledo Children's Hospital

Webra Price-Douglas, PhD, CRNP, IBCLC (Faculty Advisor)

Coordinator, Maryland Regional Neonatal Transport Program
University of Maryland and Johns Hopkins

Kirsten Johnson-Moore, RN, MSN, PHRN

Healthcare Consultant

Pre Conference Sessions (additional fee)

Must be Pre-Registered for General Session

S.T.A.B.L.E. Cardiac Module Learner Course

This learner course, taught by Howard Stein, MD, provides general guidelines for the assessment and stabilization of neonates with suspected congenital heart disease (CHD).

In completing this module, the learner will gain an increased understanding of the following concepts: The physical assessment and differential diagnosis of neonates with suspected CHD, the anatomic features, clinical presentation, and initial stabilization of neonates with CHD, and the modifications in the S.T.A.B.L.E. guidelines that are necessary when caring for neonates with CHD.

HFV & Nitric Oxide Workshop

Maintaining protective lung strategies during transport is a primary concern. This workshop provides hands-on experience troubleshooting, describing set-up, and identifying key components in delivering high frequency ventilation with nitric oxide during transport.

This session is designed for neonatologists, intensivists, respiratory therapists, neonatal nurse practitioners and advanced practice nurses who routinely deliver high frequency ventilation with nitric oxide on transport.

Fun with Procedures: A Lab Practicum with Hands on Experience

Through lectures, demonstrations and hands-on practice, this procedure lab allows attendees to expand their knowledge and skills with difficult intubation techniques, placement of intraosseous needles, chest tube placement, and modalities employed in the treatment of various cardiac dysrhythmias.

This session is intended for neonatal nurse practitioners, advanced practice nurses, transport nurses, and nursing faculty seeking to enhance their knowledge in the performance of chest tube placement, thoracentesis, pericardiocentesis, and intraosseous placement.

Hotel Accommodations

Hotel: Sheraton Austin Hotel at the Capitol

Address: 701 E. 11th Street, Austin, Texas 78701

Discounted room rate: \$167.00/night + tax

The discounted room rate is available on a first come basis and will end on **April 17, 2017**. You can make your reservation by clicking the link on our website conference page or call the hotel directly at 512.478.1111 and ask for group reservations.

Transportation options: You may take a taxi to and from the airport or use Super Shuttle if you have a group of 4 people or more. *(Note: We provide transportation to and from the offsite dinner party.)*

Conference Cancellation Policy: All cancellation requests must be made in writing on or before March 31, 2017. No refunds will be made under any circumstances on cancellations received after this date. International Biomedical reserves the right to substitute faculty or to cancel and reschedule sessions because of low enrollment or other unforeseen circumstances. If the entire meeting is cancelled, registrants will receive a full refund of their paid registration fee. International Biomedical cannot make refunds for lodging, airfare, or any other expenses related to attending the conference.
