

Therapy Support

Sali-Wipes

Sali-Wipes sterile saline (isotonic) wipes come in convenient foil packs. Nursing organizations recommend use of sterile isotonic saline for cleansing, as alcohol wipes can be damaging to fragile infant skin and may be absorbed into the bloodstream.

Sali-Wipes

Sali-Wipes are used to clean skin after disinfection & prior to invasive procedures.

Product #	Legacy #	Description	Quantity per case
989805607531	98098-013	Sali-Wipes ¹ 4 x 6 in (10 x 15.2 cm)	576

1. Has an two-year shelf life from the date of manufacture.
