Labor and Delivery

Entering a new world can be tough, and a seamless transition is the goal for every birth. Our L&D solutions provide unique and novel clinical features which focus on care for the mother & her baby.

Delayed Cord Clamping *LifeStart*

- T-piece resuscitation while cord is connected*
- Warming mattress*
- “V” shaped elevating mattress platform

Transport Incubator *A750i*

- Meets NRP guidelines
- Easy to maneuver
- Gentle ride shock absorbers

NeuroNICU

There is nothing more fragile or critical than a developing brain. From diagnosis to treatment of a brain injury, our Neuro NICU solutions provide critical insight and protective support for a very precious package.

Infant Positioning Aids *Children’s Medical Ventures*

- The original, proven solution for creating a womb-like environment
- Developmental care solutions designed for critical patients
- Unique positioning products that nourish growth and development

Neuro Protection *Transportle*

- Supports most IVH protocols
- 15° wedge elevates the head
- Stabilizes head in mid-line position
- Single patient use for improved infection control

Therapeutic Hypothermia *Tecotherm Neo*

- Total body cooling for HIE
- Cools & warms
- Programmed hypothermia protocol

aEEG Brain Monitor *Nêo*

- Designed for the NICU
- 1, 2, or 8 channels of aEEG
- Quality data with less artifact
- Access to raw EEG data

aEEG Brain Monitor + Therapeutic Hypothermia *Neuro NICU Work Station*

- Diagnosis & treatment of HIE
- Continuous brain monitoring during therapy
- Simple setup: apply electrodes & record
- Head caps with pre-positioned electrodes

NICU & Nursery

Developmental care is more than just a concept for International Biomedical, it's a design principle. Our developmental care solutions nurture the infant and provide life saving treatment with a delicate touch.

Fiber Optic Phototherapy | BiliCocoon

Kangaroo Care System

- Full 360° coverage
- Ideal for term babies
- Designed for developmental care
- Meets and exceeds AAP guidelines

NICU Nest System

- Large surface area
- Ideal for pre-term babies
- Flexible pad cocoons around patient
- Meets and exceeds AAP guidelines

Phototherapy Swaddle | Bili Pod

Phototherapy Swaddle *Bili Pod*

- Swaddle during phototherapy
- 95% of light transmission
- Soft, flexible mesh fabric
- Meets AAP Safe Sleep Standards

Neonatal Video Laryngoscope | NeoView

Video Laryngoscope *NeoView*

- #000, #00, #0, and #1 blades
- Records to SD Card
- Facilitates non-invasive surfactant administration

AirBORNE® Transport Incubators

Transport Incubator *NxtGen*

- Enhanced patient access
- New battery technology
- Servo control mode and heated mattress

Transport Incubator *Voyager*

- Rugged design for transport
- Customizable with ventilators and cardiac monitors
- Consistent thermoregulation

Therapeutic Hypothermia *Tecotherm Neo*

- Transitions from transport to NICU
- Programmed hypothermia
- USB data output

Transport Incubator *Aviator*

- Lightweight and custom built
- Mounts for two gas cylinders
- Designed for low profile aircraft

High Frequency Ventilator *TXP-2D*

- Compatible with AeroNOx 2.0
- Only transport HFV
- Small & lightweight

Nitric Oxide Delivery *AeroNOx 2.0*

- NO, NO₂, and O₂ monitoring
- Compatible with the TXP-2D
- Visual and audible alarms
