

About the Conference

International Biomedical is hosting its 21st annual AirBorne Neonatal and Pediatric Transport Conference in Austin, Texas on May 7 - 9, 2025. This conference allows transport professionals to learn new techniques and the latest advancements in neonatal and pediatric transport from experts in their field.

NEW LOCATION!

The Renaissance Austin

Join us in Austin, the state capital of Texas! Enjoy an easygoing attitude, musical talent, and a vibrant cultural scene. Have fun at our networking events throughout the conference to interact with transport teams from across the globe!

Wednesday, May 7 | 1-5 PM

Pre-Conference Sessions + Welcome Fiesta

Come in early and participate in a more intimate educational session. The pre-conference sessions are small group, hands-on, educational experiences designed to further your skills and knowledge on critical transport topics and techniques. Join the welcome fiesta in the exhibit hall for Tex-Mex and to interact with other transport teams and the conference exhibitors.

Thursday, May 8 | 8-5 PM

Main Conference Session + The Oasis & Casino Night (NEW!)

The main session begins and runs for a full day on Thursday. Join us in the evening for a leisurely bus ride through the Texas Hill Country to the famous Oasis Bar and Grill on Lake Travis.

Friday, May 9 | 8-12 PM

Main Conference Session + Awards

Our AirBorne conference wraps up Friday at noon after morning sessions and award announcements. Catch a flight out or stay in Austin the whole weekend!

FREE PEDIATRIC BONUS-SESSION!

*In partnership with the American Academy of Pediatrics
Section on Transport Medicine*

Friday, May 9 | 1-5 PM

Pediatric Mini-Session + Reception (NEW!)

Extend your stay to earn additional CEUs on pediatric focused lecture topics! After our main session concludes, join us for the new pediatric mini-session.

Robert G Holcomb, MD, FAAP, CAMTS Board Member, Neonatology

Michael Stroud, MD, FAAP, Chair AAP SOTM, Pediatric Critical Care Medicine

Recognition and Resuscitation of Pediatric Sepsis and Septic Shock During Transport

Register online for this free, new pediatric mini-session at int-bio.com.

Pre-Conference Sessions* (additional fee)

High Frequency Ventilation and Nitric Oxide Workshop

Maintaining protective lung strategies during transport is a primary concern. This workshop provides a small group, hands-on experience led by faculty at the forefront of neonatal ventilation.

Fun with Procedures | A Lab Practicum

Through lectures, demonstrations, and hands-on experience, this procedure lab allows attendees to expand their knowledge and skills with techniques including difficult intubation, chest tube placement, thoracentesis, pericardiocentesis, cardioversion and intraosseous placement.

*Class sizes are limited, register early. *Must be pre-registered for General Session.*
