

## About the Conference

International Biomedical is hosting its 22nd annual AirBorne Neonatal and Pediatric Transport Conference in Austin, Texas on May 6 - 8, 2026. This conference allows transport professionals to learn new techniques and the latest advancements in neonatal and pediatric transport from experts in their field.

### NEW LOCATION!

#### The Renaissance Austin

Join us in Austin, the state capital of Texas! Enjoy an easygoing attitude, musical talent, and a vibrant cultural scene. Have fun at our networking events throughout the conference to interact with transport teams from across the globe!

## Wednesday, May 6

### Pre-Conference Sessions + Welcome Fiesta

Come in early and participate in a more intimate educational session. The pre-conference sessions are small group, hands-on, educational experiences designed to further your skills and knowledge on critical transport topics and techniques. Join the welcome fiesta in the exhibit hall for Tex-Mex and to interact with other transport teams and the conference exhibitors.

## Thursday, May 7

### Main Conference Session + Boots, BBQ & Bets (NEW!)

The main session begins and runs for a full day on Thursday. Join us for a BBQ and casino night with a leisurely bus ride through the Texas Hill Country out to Star Hill Ranch.

## Friday, May 8

### Main Conference Session + Awards and AAP Pediatric Bonus Session

Our AirBorne conference wraps up Friday at noon after morning sessions and award announcements. Stay the entire day for the Pediatric Bonus Session!

# PEDIATRIC BONUS SESSION!

In partnership with the American Academy of Pediatrics  
Section on Transport Medicine

## Friday, May 8

### Pediatric Bonus Session (NEW!)

American Academy of Pediatrics  
DEDICATED TO THE HEALTH OF ALL CHILDREN® 

Extend your stay to earn additional CEUs on pediatric focused lecture topics! After our main session concludes, join us for the new pediatric bonus session.

**Robert G Holcomb, MD, FAAP, AAP CAMTS Board Member, Neonatology**  
*Care of the Very Low Birth Weight Neonate on Transport*

**Rudy Kink, MD, FAAP, AAP SOTM Exec Member, Pediatric Emergency Medicine**  
*Laryngoscopes, Lollipops, and Lorazepam: Pediatric Airways with a Twist*

**Archana Dhar, MD, FAAP, AAP SOTM Exec Member, Pediatric Critical Care Medicine**  
*No Tubes, No Trouble! Navigating Non-Invasive Ventilation*

**Michael Stroud, MD, FAAP, Chair AAP SOTM, Pediatric Critical Care Medicine**  
*Hot Topics in Pediatric Critical Care Transport (Including ECMO)*

### Pre-Conference Sessions\* (additional fee)

## High Frequency Ventilation and Nitric Oxide Workshop

Maintaining protective lung strategies during transport is a primary concern. This workshop provides a small group, hands-on experience led by faculty at the forefront of neonatal ventilation.

## Fun with Procedures | A Lab Practicum

Through lectures, demonstrations, and hands-on experience, this procedure lab allows attendees to expand their knowledge and skills with techniques including difficult intubation, chest tube placement, thoracentesis, pericardiocentesis, cardioversion and intraosseous placement.

*Class sizes are limited, register early. \*Must be pre-registered for General Session.*
