About the Conference

International Biomedical is hosting its 23rd annual AirBorne Neonatal and Pediatric Transport Conference in Austin,Texas on May 12 - 14, 2027. This conference allows transport professionals to learn new techniques and the latest advancements in neonatal and pediatric transport from experts in their field.

The Renaissance Austin

Join us in Austin, the state capital of Texas! Enjoy an easygoing attitude, musical talent, and a vibrant cultural scene. Have fun at our networking events throughout the conference to interact with transport teams from across the globe!

Wednesday, May 12

Pre-Conference Sessions + Welcome Fiesta

Come in early and participate in a more intimate educational session. The pre-conference sessions are small group, hands-on, educational experiences designed to further your skills and knowledge on critical transport topics and techniques. Join the welcome fiesta in the exhibit hall for Tex-Mex and to interact with other transport teams and the conference exhibitors.

Thursday, May 13

Main Conference Session + Boots, BBQ & Bets

The main session begins and runs for a full day on Thursday. Join us for a BBQ and casino night with a leisurely bus ride through the Texas Hill Country out to Star Hill Ranch.

Friday, May 14

Main Conference Session + Awards + AAP Pediatric Bonus Session

Our AirBorne conference wraps up Friday at noon after morning sessions and award announcements. Stay the entire day for the Pediatric Bonus Session!

PEDIATRIC BONUS SESSION!

In partnership with the American Academy of Pediatrics Section on Transport Medicine

Friday, May 14

Pediatric Bonus Session

American Academy of Pediatrics
DEDICATED TO THE HEALTH OF ALL CHILDREN®

Extend your stay to earn additional CEUs on pediatric focused lecture topics! After our main session concludes, join us for the new pediatric bonus session.

Robert G Holcomb, MD, FAAP, AAP CAMTS Board Member, Neonatology
Unplanned Neonatal Challenges: Delivery on the Run

Rudy Kink, MD, FAAP, Chair AAP SOTM, Pediatric Emergency Medicine
Don't Just Load and Go: Stabilizing the Pediatric Patient

Archana Dhar, MD, FAAP, AAP SOTM Exec Member, Pediatric Critical Care Medicine
The Most Dangerous Part of the Transport: Dealing with Deterioration En-route

Michael Stroud, MD, FAAP, Immediate Past Chair AAP SOTM, Pediatric Critical Care Medicine
What Scared you Most: Looking Back & Learning

Pre-Conference Sessions* (additional fee)

High Frequency Ventilation and Nitric Oxide Workshop

Maintaining protective lung strategies during transport is a primary concern. This workshop provides a small group, hands-on experience led by faculty at the forefront of neonatal ventilation.

Fun with Procedures | A Lab Practicum

Through lectures, demonstrations, and hands-on experience, this procedure lab allows attendees to expand their knowledge and skills with techniques including difficult intubation, chest tube placement, thoracentesis, pericardiocentesis, cardioversion and intraosseous placement.

*Class sizes are limited, register early. *Must be pre-registered for General Session.*
